Customer Reviews

The book arrived in great condition and right on time before class began. The subject matter is very relevant and has great practical information on the mediation process.

The book itself is excellent. What is less so is the promised access to the relevant website in order to access online material. The key supplied with the sealed text simply did not work and one seems to get the run around in seeking redress from the publishers. However, this should not be allowed to mar the content of the hard copy material which certainly supplements in a meaningful way some of the existing literature.

Thanks!
