This was little more than a glorified dictionary explaining what some things were in mentalism. Very few decent effects are revealed and again we have card magic. Did anyone edit this? YouTube searches will reveal more for free.

Not eye opening and somewhat boring and predictable.

I have been reading up on why I am the way I am. I can easily read a person based on...well, I'm not sure. Out of all the books I've read, this one leaves out a lot of glitter. Touches every area, simply. I've read it twice. Other books I've skimmed through, because the glitter bores me.

This was interesting and worth the money. Very good for beginners.

Not very much useful info
