# The Call To Arms: The 1812 Invasions Of Upper Canada (Upper Canada Preserved \_ War Of 1812)

## Synopsis

From 1812 to 1815 a war was fought between the United States and Britain that decided the destiny and future of North America. The Call to Arms is the first of six books in the series Upper Canada Preserved • War of 1812. Each book in this battlefield-based chronicle combines the best of modern historical research with extensive quotations from original official documents and personal letters to bring to life this crucial period of Canada's early history. Numerous historical images of locations are counterpointed with comparable modern perspectives to give a true then-and-now effect. Custom-drawn maps are also included to trace the course of individual battles stage-by-stage, while placing and moving the shifting formations of troops across a geographically accurate battlefield. In this first entry in the series, the focus is on the 1812 invasions of Upper Canada: the Battles of Detroit, Queenston Heights, and Frenchman's Creek, and features such figures as Major General Isaac Brock, Brigadier General William Hull, Major General Roger H. Sheaffe, and Tecumseh, among others.

## Book Information

Series: Upper Canada Preserved \_ War of 1812 (Book 1)

Paperback: 160 pages

## Customer Reviews

This first installment to a long-forgotten, "small" war is interesting and very detailed. I found it fascinating because the author is Canadian and how they view this "aggression" from the Canadian viewpoint. It's hard to believe American leaders were so timid and inept but lack of victories and lost lives serve to bear out these shortcomings. This book is purely for the history buff who wants to learn about this obscure war with Britain. Fun to read and easy to understand. I'm reading the entire

series to get the full impact of this little war of "Yankee aggression".
