The Protection Racket State: Elite Politics, Military Extortion, And Civil War In El Salvador (Political Science/Latin America Studies)

Synopsis

In 1932 security forces in El Salvador murdered 25,000 peasants and workers. Between 1978 and 1991 the Salvadoran government killed an additional 50,000 civilians. This work demonstrates that the Salvadoran military state was essentially a protection racket.

Customer Reviews

This remarkable history of the military terrorist industry in El Salvador has no equal. The section related to the beginning of the civil war is such a remarkable and well documented piece that at times reads as fiction. To me, who fought in that part of the conflict, the description of the inner workings of the Junta and the military machinations that made the war inevitable, are simply put, outstanding. There is nothing that comes close to the completeness of this work. It is a pity that such work, particularly the section that I described, is not available in Spanish. Bravo.

Well, sadly, the title says it all. Well researched and documented. Arrived from seller quickly and as expected.

This volume, which has been reviewed quite widely, is an excellent contribution to understanding the nature of the conflict in ES and the kind of social trade offs elites made to stay in power. A really useful addition to military in LA studies, revolution studies and of course required for those engaged

in the question for ES development
