Customer Reviews

Actually, it's a pretty solid case book. The cases are all edited so they are to the point and the supplemental material, note, etc. are all clear. Certainly more than in civil procedure. What the hell is with civil procedure?

The book was exactly as described and worth the purchase, pretty much a steal. I received the book quickly. Will be making future purchase if I have the chance.

although my class requires this EXORBITANTLY expensive textbook, it came in perfect condition and the pages are very clear and awesome quality.

Is just what it claims to be. Delivery was good.
