## Customer Reviews

I rented a copy of this book and received a used edition. There's some general wear and tear and modest highlighting and underlining within the first few chapters of the textbook, but this is to be expected with a used copy. From my first impressions of the book, the content seems straightforward and easily understandable.

Business Law is a wonderful textbook, it is written in easy to understand language and the chapters are separated into small manageable sections. Great book and I would recommend it to anyone taking business law classes.

This book is very used and worn. The pages are dogeared and the cover is bent. Very used. So

glad I rented it and did not buy it. This book should of been thrown out.

Awesome book! Expensive but good book for class! If your taking a business law, this book helps a lot to understand!

Other than the fact that it was a text book, it was a digital copy and worked well for me.

It was a great experience. The book was affordable and just what I needed. Thanks

Book was in great condition and price to rent is very reasonable.

This was a required book purchase for a business class.
