Customer Reviews

Usually not a fan of school, but this textbook was great. This textbook explained most things 10x better than the teacher, and I had a top notch teacher who graduated from Harvard. I normally don't write reviews on textbooks (or even buy them for most classes), but this one was fantastic. I also bought the older edition to save \$\$, and only 1 case study was different. They might have switched the order of two of the chapters as well but was overall a great buy.

This book is very easy to study and understand. The chapter outlines in the back of each chapter help you to understand how everything in the chapter/part ties together. The book uses clear language and I didn't have any trouble understanding it.

Wonderful purchase!
